

2-Player Quick Start Guide

For a quick-start game, the younger player will be Home. The older player will be Visitor.

1 Set up the Game Board

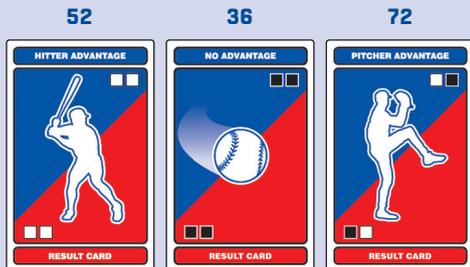

Unfold the game board and place the pegs where shown. Put aside any unused green or white pegs.

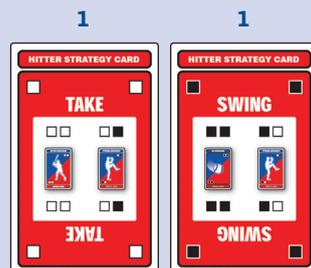

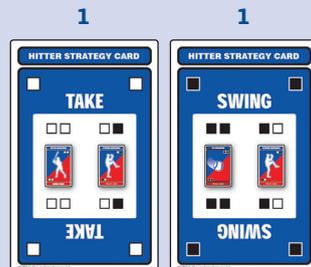

2 Sort the Cards

Sort the cards as shown. Shuffle any cards placed on the game board.

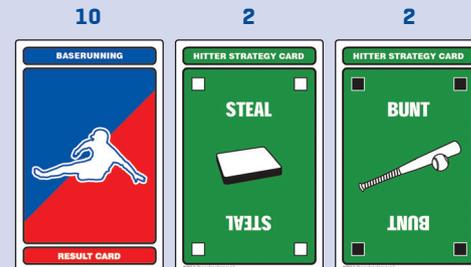

Place on the game board

Give to each player

Put aside (back in the box)

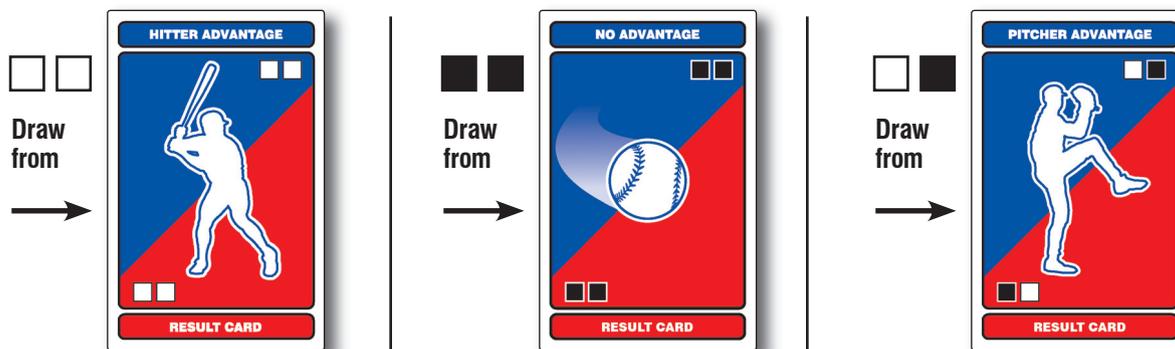

3 Draw to Start

Home takes 5 red Pitcher Strategy cards to make a hand. Visitor takes the blue SWING and TAKE cards.

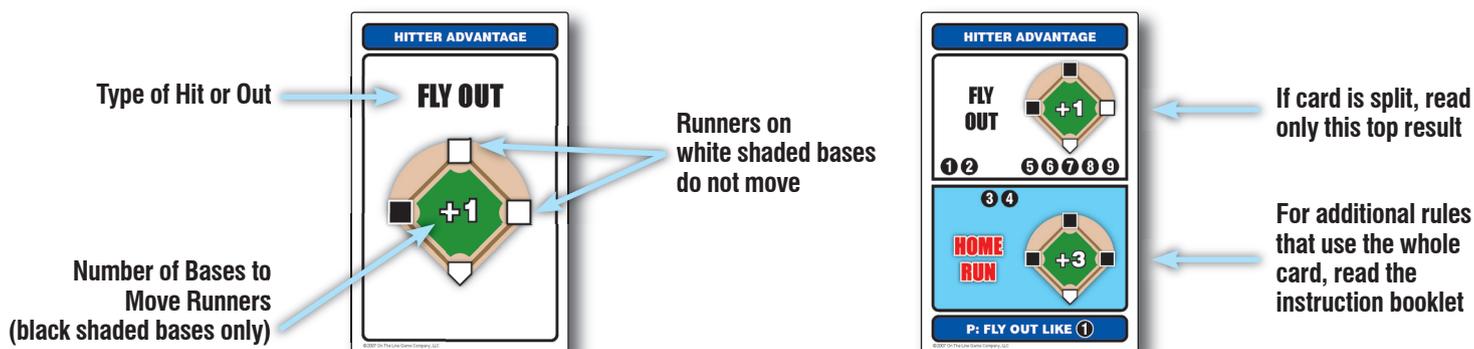

4 Play Ball!

Pizza Box Baseball is played per the rules of baseball. Instead of playing out every pitch, players play each at-bat. Play for nine innings (or extra innings, if necessary). Higher score wins!

1. Pitcher takes a white (BALL) or black (STRIKE) strategy card and places it face down.
2. Hitter places either the white (TAKE) or black (SWING) strategy card face down.
3. Players turn over their cards. Based on the 2 colors played, draw a result card for the at-bat.

4. Read the result, and place the card on the discard pile.

5. Move pegs for outs, runners and score. The pitcher does not draw a new card.* The pitcher places the card on the discard pile; the hitter picks up their card and may use it again for the next hitter. Prepare for the next at-bat, returning to step 1 until there are 3 out in the inning.
6. After 3 outs, update the scoreboard. Players then swap roles. The pitcher discards any remaining Pitcher Strategy cards and takes the red SWING and TAKE cards. The hitter puts aside the blue SWING and TAKE cards and becomes the pitcher, taking 5 blue Pitcher Strategy cards. Shuffle pitching cards after 3 innings.

* If the pitcher runs out of cards in an inning, the pitcher draws 3 additional cards to continue the inning. Thereafter the pitcher may only draw 1 additional card at a time to finish that inning.
